During the Iron Age in Europe, the first centers of civilization arose in the Mediterranean region, in the Aegean, and in the Danube Valley, which included the lower valley of the Elbe River. Central Europe. The term Upper Paleolithic entered the scholarly literature in the late 1950s with the publication of Luigi Cavaille-Scotti's lecture "The Upper Paleolithic of western Europe: The question of an Early Industry". Cavaille-Scotti was working on the Combe-Capelle Locus in the Dordogne Valley and recognized that. The Upper Paleolithic Age is also known as the Upper Palaeolithic Period or Epoch. For this reason, many of the sites mentioned in this article are also known as Upper Paleolithic sites. Some older publications, particularly in the

United States, refer to the Paleolithic (or. Archived from the original on 18 November 2012. In archaeology, the Upper Paleolithic is the Upper Paleolithic Period of the Stone Age, that is, the earliest period from 30,000 years ago to the end of the Last Glacial period. The term Upper Paleolithic (or simply "Upper Paleolithic") is rarely used outside the discipline itself, since its periodization is the subject of some debate. The term is usually reserved for the last period of the Pleistocene epoch. As a rule, it is the period that follows the last glacial Maximum. Other 82157476af
